

1 BILL NO. S-82-04-09

2 SPECIAL ORDINANCE NO. S-62-82

3 AN ORDINANCE approving a certain bid document
4 for the purchase of batteries needed through-
out the year in various departments.

5 BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF
6 FORT WAYNE, INDIANA:

7 SECTION 1. That a certain bid document reference
8 number 1020 dated February 8, 1982, between the City of Fort
9 Wayne, by and through its Mayor and the Board of Public Works
10 and Taylor, Blackburn & Joy for batteries as they are needed
11 throughout the year in various departments at a total approxi-
12 mate cost as set out more particularly in said bid document
13 reference number 1020, which is on file in the Office of the
14 Department of Purchasing and is by reference incorporated herein,
15 made a part hereof and is hereby in all things ratified, confirmed
16 and approved.

17 SECTION 2. That this Ordinance shall be in full force
18 and effect from and after its passage and approval by the Mayor.

*Minimum Contents 4.95 Gallons

T Designates items which are eligible for a refund of Federal Excise Tax when sold to tax exempt purchasers.

Diagonal lines To be discontinued when inventories are depleted.

SPECIFICATIONS

Bidder shall include the complete battery specification data sheet, which includes BCI Group No., vendor group no., warranty, plates per cell, amp rating, cranking performance, etc.

The price listing would be that listing such as "GSA Price List," or the equivalent. Should the vendor extend additional price discounts above those stated on the price list, this must also be included.

Bidder shall state if the batteries are filled or unfilled.

Trade-ins on batteries must also be included in the bid.

Prices shall be held firm from March, 1982 through June, 1982.

Motorcraft price schedules #BD-47J and BD-10A are enclosed.

These schedules will provide you with complete battery specification data, including BCI group numbers, Vendor parts number, Warranty, plates per cell, Amp rating, cranking performance, maximum dimensions, and approximate amount of acid required.

Your net cost per battery will be 28% off of price listed in Fleet Column.

All batteries will be dry, except batteries with MF prefix part numbers.

No trade in batteries required on this Bid.

These prices are firm through June 1982.

†Running time at 80°F to 1.75V per cell; 80 min. at 75 amps.

††Running time at 80°F to 1.75V per cell; 100 min. at 75 amps.

NOTE FOR ALL
FIRESTONE BATTERIES

CRANKING PERFORMANCE—The discharge load in amperes which a battery at 0°F can deliver for 30 seconds and maintain a voltage of 1.2 volts per cell or higher.

50 Firestone Battery Line and Specifications

MAINTENANCE-FREE TYPES ARE IDENTIFIED BY LETTER "M" SUFFIX TO MFR'S. NUMBER.

Firestone batteries listed below are available wet and fully charged at the same price as dry-charged to save electrolyte cost. Allow additional time; shipped directly from supplier. When ordering wet batteries, add CW at end of battery number.

Any battery not listed, but manufactured by our supplier is available on special factory order. Contact Akron Automotive Marketing Dept. for availability and price. For additional "Firestone Battery Specifications" sheets, order stock no. 50-10-211-4.

12-VOLT BATTERIES FOR AMERICAN CARS AND LIGHT COMMERCIAL VEHICLES—**VP**

50 Firestone Maintenance-Free and Special Application Batteries

A FIRESTONE "60" • 60-MONTH

A high-capacity battery with all the outstanding Firestone construction features. High-quality replacement value for cars with high electrical demands such as air conditioning. Designed to last its warranty period without having to add water.

B FIRESTONE "48" • 48-MONTH

Recommended for use in cars with normal electrical loads and for average driving in all weather conditions. Suggested capacity minimum for vehicles used primarily for stop-start, city traffic driving. Designed never to need water for its warranty period.

(Group no. 55-48 is not maintenance-free.)

C FIRESTONE "36" • 36-MONTH

Economy-priced battery designed never to need water during the warranty period. A great battery with all the high-quality features of the Firestone line. Recommended for use in vehicles with light to normal electrical needs in moderate weather conditions.

(Group nos. 1-36, 22NF-36 are not maintenance-free.)

D GOLF CART BATTERY

Rugged plastic container and heavy-duty plates; dual-insulated. Offers deep cycling service and more golf holes per recharge GC-2H averages 100 running minutes or approximately 36 holes. GC-2, 80 minutes or approximately 18 to 27 holes between recharges.

E GARDEN TRACTOR, SMALL ENGINE BATTERY

Designed for dependable, top-performance service in small garden tractors, riding mowers, snow blowers, snowmobiles, etc. Engineered for dependability even in infrequent or Intermittent service. Available with right or left-hand positive connection.

F TRUCK • BUS TRACTOR • DIESEL MAINTENANCE-FREE

Designed to provide maintenance-free service for up to 200,000 miles under, normal conditions.

High capacities and high discharge voltage assure superior performance under the most rigorous requirements of commercial and farm service. Heavy-duty plates and separators mean quick, powerful starts and a long life of hard service.

(Group nos. T-3ET and TB-30H are not maintenance-free.)

SPECIAL ASSEMBLY PLANS FOR TYPES D-4DM AND D-8DM

Unless otherwise specified, these batteries will be shipped with bare tapered posts, the only types stocked in distribution centers. Special plans illustrated may be ordered at additional cost. If a special plan is desired, specify on your order by plan number.

*Allow additional time for delivery; shipped directly from supplier.

BATTERIES ARE NOT FILLED, BUT MAYBE AT NO CHARGE.

TRADE IN ALLOWANCE 1.50

Limited Warranty and Adjustment Policy **50** DAY

ADJUSTMENT PERCENTAGE TABLE FOR TYPE "A" SERVICE ONLY

The adjustment percentage table below has been prepared for convenience in computing the price at which batteries, becoming unserviceable within Firestone's adjustment policy, should be replaced. To compute the "Replacement Price," multiply the current exchange price by the proper percentage for the type of battery involved.

Months of service received	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42	43	44	45	46	47	48

"60" Line (cont'd from above)	82	83	85	87	88	90	92	93	95	97	98	100																																			

All Firestone batteries listed below are warranted to be free from defects in workmanship and material for a designated number of months from date of purchase by original purchaser, depending upon the type of battery purchased and type of service.

If the battery becomes unserviceable (not merely discharged) within the first 90 days from date of purchase, the original purchaser is entitled to a new battery of the same type installed without charge.

If after 90 days from date of purchase, the battery fails within the designated number of months and cannot be recharged, it will be replaced with a new battery of the same type. The purchaser will be charged a proportionate part of the approved current purchase price for the number of months service rendered.

Replacement for non-commercial passenger car owners will be based on our retail exchange price current at time of adjustment.

If an adjustment is made, purchaser must surrender his warranty certificate on the adjusted battery.

Battery failure due to abuse, fire, accident, freezing, malfunctioning charging system in vehicle, use of higher than 1.265 specific gravity electrolyte, battery "rejuvenators" or "patented electrolyte" voids this warranty.

TYPES OF SERVICE DEFINED

Passenger car, light commercial and farm tractor type batteries:

TYPE A: Passenger cars (except taxicabs and police cars), light commercial vehicles, trucks through one-ton capacity, and farm tractors (T-3ET only).

TYPE B: All other highway vehicles, including taxicabs, police cars, commercial vehicles and trucks over one-ton capacity, farm tractors (except T-3ET) and gasoline operated industrial tractors.

TYPE C: Off-highway equipment except farm tractors and gasoline operated industrial tractors.

Truck-Bus and Diesel batteries:

TYPE A: On-highway vehicles.

TYPE B: Farm tractors.

TYPE C: Off-highway service except farm tractors.
